Track Training Forms and Templates Library Manager Specify the access that you wish to grant to each user at Covenant Medical Center. You should grant each user only minimum level of access necessary to perform their work on this project.

- Signature Only (Read): Users whose only role is to sign off on project documentation should be granted "Read"
 access. Users with Read access can view project documentation, communicate with the project team and add th
 signature. This would typically include advisors, department heads, and other individuals who are required to sign
 on the project documentation prior to submission but do not otherwise have a day-to-day role on the project.
- Read: Users that are granted "Read" access can view project documentation, collaborate with other users and a
 their signature, but may not edit project documents or perform any other administrative functions.
- Write: Users that are granted "Write" access can view and edit project documents, collaborate with other users a
 add their signature, but may not grant access to other users, submit packages for review or perform any other
 administrative functions.
- Full: Users that are granted "Full" access can perform all functions without restriction. The includes editing proje documents, sharing the project with other users, submitting document packages for renew and deleting documen packages. Only Project Owners with day-to-day responsibility for the project should be granted Full access. User with Full access will receive automatic email copies of all project notifications and alerts that are sent to the Proje Owners.

Search for a User:			Search
	Save	Cancel	

6. Decide the access you would like them to have, then click the appropriate radio button.
